ALVIN COMMUNITY COLLEGE

Begin Your Nursing Career at Alvin Community College

The Alvin Community College Nursing Program can help you take advantage of the vast health care career opportunities that exist in the Houston Metropolitan region and beyond. The region is home to the largest medical complex in the world (Texas Medical Center). Employment for registered nurses (RNs) in Texas is expected to grow by 35 percent by 2030 while demand is expected to grow by 54 percent.

Nursing is a high-paying, well-respected, and in-demand career path. With a degree in nursing

Career Opportunities

As the largest healthcare occupation, RNs work in a variety of healthcare settings including hospitals, clinics, surgical centers, long-term care, home healthcare, and others. The median salary in the region is approximately \$78,233/yr with over 2800 annual job openings.

from ACC, you can become an RN in just two years or transfer to a four-year university to obtain your bachelor of science in nursing (BSN) degree.

Our experienced faculty and staff will instruct and mentor you inside and outside the classroom. The training is rigorous and rewarding. Our students consistently achieve some of the highest first-time pass rates in the state on the national licensing exam (NCLEX-RN).

What Will I Study?

Each semester ADN students will be enrolled in theory and clinical courses. In addition, skills courses are taught in the first year of the program. During the last semester capstone course, students spend approximately half of the semester in a preceptorship (mentored) experience. The ADN program has clinical affiliates throughout the Houston-Galveston region, including the Texas Medical Center.
